Capped water bills, however much you use

If you already have a water meter but are finding it hard to save, our WaterSure tariff could help. If you qualify, we'll cap your yearly bill regardless of the amount of water you use.

## Is it for me?

WaterSure is designed for our customers on means-tested benefits who need to use lots of water.

This could be for a number of reasons. For instance, you could have three or more dependants under the age of 19 living in your home. Or you might have a water-dependent medical condition.

We have a range of different tariffs  
to help you get back on track.

# WaterCare

## Discounts for low-income households

Our WaterCare tariff is available to customers on means-tested benefits who either use a water meter or are already on assessed charges because you can't have a meter.

In addition, your equivalised weekly income must be less than £295.

### What does 'Equivalised' mean?

Equivalised income means we're not just taking into account how much you earn. But also the size of your household.

For example, an income of £295 goes further for a single person than it would for parents with three children. We'll work out your equivalised income with you, based on the details you supply.

### Is it for me?

You only need to fill in one application form to see which tariffs you qualify for. It only takes a few minutes to do and is completely confidential.

 Complete it online at [www.southwestwater.co.uk](http://www.southwestwater.co.uk)

 Alternatively, give us a call on **0344 346 1010** and we can talk through the best options for you.

### How does it work?

Once we've worked out if you qualify, we'll offer you a reduction on your bill.

This ranges from a **15%** discount up to **85%**.

We don't want anyone worrying  
about their water bill.

# Flexible payment plans

Helping to spread the cost of your bill

If you're struggling to pay your bills, we can set up a payment plan to help spread the cost.

## Is it for me?

Our payment plans are available to everyone.

Putting a plan in place can be particularly helpful if your income changes week-by-week.

## How does it work?

 Call us on **0344 346 1010** and we can chat through the best option for you.

This could include moving to a weekly, fortnightly or monthly plan.

We can also talk about whether there's an easier way for you to pay your bills, such as direct debit, standing order or over the counter at your local bank.

If you are currently applying for any means-tested benefits, please let us know and we can put your account payments on hold until your application is complete.

Flexible payment plans  
help you spread the cost,  
and plan ahead.
